

2021 SPRING WHEAT GUIDE

SERIOUS WHEAT

DELIVER MORE THIS SPRING

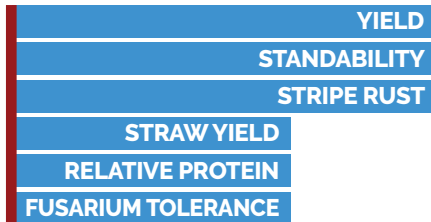

Serious Spring Wheat.

NEW!
Raven
Yield! Straw! Testweight!
SEEDING RATE
1.6 Million seeds/acre or 145 lbs/acre

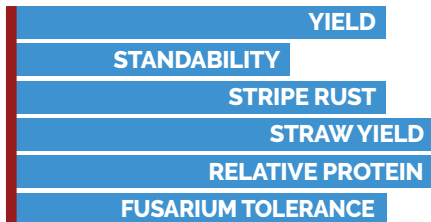

- Taller variety with yield and protein
- 109 yield index - 5 years (East)
- 116 yield index - 5 years (Midwest)
- Good overall disease package

Wilkin
Yield King!
SEEDING RATE
1.6 Million seeds/acre or 135 lbs/acre

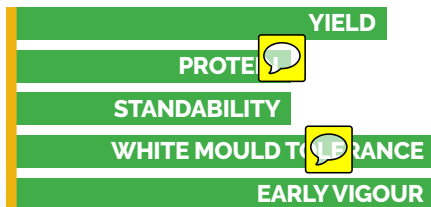

- Proven Long Term Yield Performance
- #1 Seller in Midwestern Ontario
- Great Standability
- 113 Yield Index over 5 years (Midwest)

Furano
Eastern Ontario Fave!
SEEDING RATE
1.6 Million seeds/acre or 140 lbs/acre

- Tall variety
- Best suited for Eastern or Northern Ontario
- 100 yield index over 5 years
- Provides lots of straw

SOYBEANS
Angelica
IP Soybean Variety!
SEEDING RATE
1.6 Million seeds/acre or 140 lbs/acre

- Strong Yielding north of London
- Excellent Protein
- Contracted by Huron Commodities
- Premium Pricing

OATS
AAC Oaklin
Long Term Choice!
SEEDING RATE
1.2 Million Seeds/acre or 100 lbs/acre

- Good Crown Rust Tolerance
- Great bushel weight
- White hulled oat
- 109 Yield index over 5 years

Note: Ratings based on commercial production fields, demonstration plots, company screening trials and official OCCO performance and registration trials. All seeding rates based on average seed size of variety in past year performance trial data.

2020 SPRING WHEAT PERFORMANCE TRIAL CUMULATIVE YIELD INDEX¹ SUMMARY

YIELD INDEX SUMMARY

CULTIVAR	CLASS ³	AREA II ²					AREA III ²					AREA V ²

Means (bu/ac)		58	58	65	66	55	54	51	54	61	51	59	58	60	63	61
Locations		12	9	7	6	3	13	10	7	4	1	14	11	8	5	2

1. Values differing by less than 3 within a column may not represent true differences in yield. Yield Indices are Heritability Adjusted Relative Values (HARV), which favour results from trial locations with high repeatability. For more information, see: Yan, W. Use of HARV in Variety Trial Summaries.

2. See area map on GoCereals.ca website.

3. HRS = hard red spring, EFS = eastern feed spring, Other = does not meet quality standards for CEHRS, -a = awned

4. Cultivar yield ranking may vary from year to year. Decisions are therefore best made using data with the greatest number of years.

PBR Status: indicates varieties protected under PBR 91 or PBR78. Visit pbrfacts.ca to learn more.

Serious Genetics

FOR SERIOUS WHEAT GROWERS!

Can you afford not to have some wheat on your farm? It improves soil structure, helps increase the yield of other crops and breaks up your workload timing. It is still the most important food grain source for humans. When it comes to Wheat – C&M Seeds is the leader in both spring and winter. We have varieties that can fit any farm that you choose to place spring wheat on.

Looking for high yields and standability – ***Wilkin has been the leader for many years!*** ***Looking for a strong combination of yield and straw – Raven or Furano are the varieties to choose!*** Looking for top of the line fusarium tolerance? C&M Seeds research team have a long history of introducing top performing spring wheat varieties to the Eastern Canadian market.

Raven came to growers in 2019. It features top level yields in all regions of Eastern Canada – Ontario to the Maritimes! Raven features a medium to tall height, high straw volume, large head size and top ranking yield. This variety is about 10 cm taller than Wilkin and seems ideally suited for situations where growers are looking for high straw volumes combined with high yields – maybe the ideal variety to push yields even higher with a growth regulator.

Wilkin continues to be the benchmark for spring wheat. Growers can now expect higher than ever yields (some have yielded over 100 bu/acre).

Furano continues to be a strong choice for growers in Eastern Ontario with its high yields, tall height and excellent fusarium ratings.

If you are Serious about Wheat – You need C&M Seeds' genetics on your farm! Give us a call, we can help you make the right choice when it comes to varieties. 1-888-733-9432

The Certified Difference

*When you buy a bag of certified seed from C&M Seeds, there are a few things you can guarantee. It will come with the top performing seed treatment and it is also backed by years of Performance Testing in Ontario's unique climate, and by the leading wheat professionals in Ontario – **The Wheat Team!***

We will continue to give our customers leading genetics and the product knowledge to make the best out of those genetics.
