

Position – Assistant Research Agronomist (summer)

Key Activities/Job Responsibilities

You will be part of the team developing new varieties for Ontario Farmers! In your role as Assistant Research Agronomist, you will be actively involved in all areas of C&M's cereal and oilseed research program including seed packaging, planting, crop and plot care and maintenance, data collection of disease and agronomic traits, early generation seed production, plot harvest and data entry.

Specific agronomy projects related to crop production [ie fertility, fungicides and plant growth regulators] will also be assigned as part of your role.

This position is full-time seasonal, from May to September.

C & M Seeds is a family-run seed and grain business located in Palmerston, Ontario.

Additional requirements:

You will need to have a positive attitude with a desire to learn and develop new skills. You will gain a background in field plot techniques and knowledge of the operation and maintenance of field plot and/or farm equipment. As well you will acquire leadership skills, a knowledge of agricultural practices, crop agronomy and basic computer skills. A valid driver's license is mandatory.

If there are any questions or concerns, please feel free to contact me.
