

Posting: Assistant Research Technician (summer)

Key Activities/Job Responsibilities

Be part of the team developing new varieties for Ontario Farmers! In your role as Research Technician Assistant, you will be actively involved in all areas of C&M's cereal and oilseed research program including seed packaging, planting, crop scouting, crop and plot care and maintenance, data collection of disease and agronomic traits, early generation seed production, plot harvest and data entry.

This position is full-time seasonal, from July to September.

C & M Seeds is a family-run seed and grain business located in Palmerston, Ontario.

Additional requirements:

A positive attitude with a desire to learn and develop new skills.
